#### **Keystone Avenue Detour**

Construction began on the City's short-term solution for detoured traffic from the northbound Keystone Avenue culvert over Haverstick Creek. The Indianapolis Department of Public Works (DPW) has begun work to widen lanes on the southbound Keystone Avenue culvert in order to facilitate two-way traffic. The crossover will be located 700 feet south of Woodfield Crossing Blvd. Construction will continue through the weekend. This solution is expected to be in place by Tuesday. Commuters should expect traffic delays as lanes are restricted on southbound Keystone Avenue near Woodfield Crossing Boulevard until construction of the crossover and lane widening is complete. The southbound culvert is structurally sound; however, additional reinforcement will be placed at the base as a proactive measure should another storm of this magnitude occur in the near future. Design work for the repairs needed for the northbound culvert is underway. Design is expected to be completed in 3 weeks. DPW has authority to then get quotes for construction immediately upon design completion. Construction is expected to take approximately 6 weeks.
